

LIST OF VIDEO PRESENTATIONS

Best video session (open/lap)			
WEDNESDAY, MAY 29, 8:35-10:00	Chamber Hall		
Conrad Baceller	Exploring the boundaries of the infinite loop: Limitations and real-world applications		
Clara Gené Škrabec	Intercostal post-traumatic hernia		
Miguel Angel Garcia-Urena	Abdominal wall reconstruction for giant bilateral subcostal incisional hernia		
Carlota Tuñón	How to perform a cranial dissection of a Rives-Stoppa		
Javier Lopez-Monclus	Abdominal wall reconstruction after post-Rives injury of linea semilunaris		
Miguel Angel Garcia-Urena	Completely pre-peritoneal eMILOS for subxiphoid eventration		
Laura Román García de León	Hybrid approach for Madrid-PCS in lateral hernias		
Luciano Ferrando	A case of laparoscopic obturator hernia		
Oscar Alpizar-Rivas	eTEP Pauli in a type IV parastomal hernia		
Marcus Wannberg	Navigating recurrent parastomal hernia: A laparoscopic sugarbaker approach		
Maroon Tohmeh	Subcutaneous onlay laparoscopic approach (SCOLA) mesh repair for umbilical hernia and diastasis recti: Technical description		

	Best video session (lap/robot)		
FRIDAY, MAY 31	, 12:00–13:25	South Hall 3AB	
Victor I	Radu	eTEP: Straight stick or a robot?	
Jose Luis (García Galocha	Lindblom hernia: Ureter incarceration in left sciatic foramen. Laparoscopic approach	
Joaquín Manuel I	Muñoz Rodríguez	Finding of chylous ascites secondary to mesenteric compression due to giant inguinal hernia: TAPP approach	
Jorge 2	Zárate Gómez	Total extraperitoneal endoscopic inguinal hernioplasty (TEP). Dealing with the round ligament	
Christian Jorge I	Robles Bardales	eTEP Rives-Stoppa vs. total visceral sac separation (TVS) technique: Differences between two minimally invasive sublay approaches for midline hernias	
Petra I	Friedova	Laparoscopic eTEP Rives-Stoppa for the treatment of Pfannenstiel incisional hernia associated with bilateral inguinal hernia and diastasis recti	
Oscar /	Alpizar-Rivas	e-TEP TAR in a L4W3 right post nephrectomy hernia	
Carmen I	Maillo	Postoperative interstitial hernia after e-TEP causing intestinal obstruction	
Carmen (Galiana-Montiel	Right inguinoscrotal hernia with irreductible sigmoid neoplasm: Oncological resection and concomitant complex robotic hernia repair	
Ashish V	Vashistha	Robotic inguinal hernia mesh repair (rTAPP) post robotic assisted radical prostatectomy	
Rafael V	Villalobos Mori	Robotic triple neurectomy for postoperative inguinal pain	
Arvind S	Sinha	Robotic Morgagni hernia repair in an infant	
Christian (Gröger	Robotic transabdominal preperitoneal diaphragmatic hernia repair (Morgagni hernia)	

Videos (available in the conference mobile app)			
Alejandro	Acosta Rodríguez	Robotic Rives-Stoppa eTEP lower approach for the treatment of multiple ventral incisional hernias in obese patients	
Manish Kumar	Agrawal	Two staged laparoscopic repair of inferior lumbar hernia due to appendicular abscess	
Iea	Alabbasi	What would you do differently? Complex management of recurrent incisional and para- stomal hernias: A case study of a 52-year-old patient with complications and surgical challenges	
Santiago	Alonso	Left Petit's hernia in ancient patient	
Gøran	Andersen	Staged, laparoscopic hybrid ePauli repair for a large parastomal hernia – case report	
Alberto G.	Barranquero	Approach to the visceral and parietal compartments in robotic transabdominal preperitoneal (TAPP) inguinal hernia repair	
Nitin	Baste	eTEP for giant type 2 inguinal direct hernia	
Nitin	Baste	Laparoscopic eTEP in acquired abdominal intercostal hernia with peritoneal flap with large polypropelene mesh placement	
Nitin	Baste	Laparoscopic management of strangulated recurrent inguinal hernia with tackling of intraop unusual defect closure troubleshooting	
Nitin	Baste	Laparoscopic eTEP RS for right paramedian incisional hernia with peritoneal flap	
Rania	Belkebir	Laparoscopic treatment of right inguinal hernia re-recurrence	
Alejandro	Bravo Salvá	Emergency laparoscopic transabdominal preperitoneal (TAPP) hernioplasty for Garangeot's hernia: A case report	
Malina	Caraiman Gall	Route for a successful repair in a severe eventration with loss of domain: Botox- pneumoperitoneum and Malmö repair	
Riccardo	Caruso	The new era of robotic surgery: First case in Spain of right hemicolectomy on HUGO RAS [™] surgical platform	
Riccardo	Caruso	Case of a laparoscopic transabdominal preperitoneal (TAPP) repair for giant inguinoscrotal hernia	

	Clavell Font	Parastomal hernia repair
Thiago		Robotic assisted totally extraperitoneal incisional hernia repair with posterior component
		separation after orthotopic liver transplantation
	Curado-Soriano Curado-Soriano	LIRA without traumatic fixation
		Pain plug explant using TAPP technique Laparoscopic repair of recurrent cases after laparoscopic hernia surgery; mesh removal
Metin	Ertem	and re-mesh repair
Metin	Ertem	Nuck cysts: Three cases treated with the TEP technique
Metin	Ertem	A new technique that facilitates surgery in e-TEP repair
Valentina	Ferri	Robot-assisted Nissen fundoplication with the new HUGO [™] robotic assisted system: Firs worldwide report with system description, docking settings, and video
Meritxell	Font	Modified LIRA+ as a laparoscopic complex lateral eventhroplasty
Meritxell		Sugarbaker technique for and unusual case of ileal conduit eventration
Panagiotis		Laparoscopic repair of incarcerated femoral hernia and follow up review 9 months later due to laparoscopic repair of omphalocele
Juan	Gajda Escudera	False inguinal hernia
Juan	Gajda Escudera	Continuous fascial traction system: Preventing fascia retraction of an open abdomen
Marcos	Gámez	The Halley's Comet of hernias: Grynfelt hernia
	Gandhi	Contralateral eTEP inguinal hernia in a previously operated left eTEP inguinal hernia: Technique & mitigation strategy
	Gandhi	Saga of a decade! Bilateral groin mesh explantation with colocutaneous fistula
	García Corona	Obturator hernioplasty with TAPP technique for strangulated hernia
Ioannis	Gerogiannis	Totally extraperitoneal inguinal hernia repair in a patient with cerebral palsy
Julio	Gómez-Menchero	Extended totally extraperitoneal (eTEP) associated to transversus abdominis release (TAR) in the multi-recurrence ventral hernia
Simona	Grimaldi	Robotic-assisted single docking TAR
		Laparoscopic approach to inguinal hernia with incarcerated ovary in a patient with
	Gutierrez	endometrial neoplasia
	Gutiérrez Iscar	A hybrid approach to abdominal wall repair in M2-3W2 hernia with Crohn's history
	Hansske	Acute intestinal obstruction due to a parastomal hernia EHS grade IV
Alexis	Holland	Robotic repair of a multiply recurrent inguinal hernia
Carlos	Hoyuela	Laparoscopic transabdominal lumbar hernioplasty: Main technical steps and mesh fixation with cyanoacrylate
Chiung Hui	Hsieh	Laparoscopic total extraperitoneal fasciotomy for Fournier gangrene extending to retroperitoneum: A case report
Alexandros	Chamzin	Laparoscopic TAPP repair of Spigelian and bilateral inguinal hernia
Romario	Chanci	Preaponeurotic endoscopic repair (REPA) of diastasis recti and ventral hernia
Henry	Chua	Transforming TEP to e-TEP using the Rola technique without changing port position
Ashesh Kumar	Jha	Preoperative progressive pneumoperitoneum and anterior component seperation with peritoneal flap hernioplasty for recurrent incisional hernia after transversus abdominis release with posterior component seperation
Vishakha	Kalikar	Dual mesh dual approach
		Central tendon diaphragmatic hernia laparoscopic repair with mesh found incidentally
Aristotelis	Kechagias	during minimally invasive surgery for multiple post-operative abdominal hernias
Haitham	Khalil	Perineal hernia: Video of a perineal genu pectoral approach with flap and non-absorbabl
Haitham	-	Perineal hernia: Video of a perineal genu pectoral approach with flap and non-absorbabl mesh repair technique
Mukund	Khetan	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap
Mukund	-	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges
Mukund Nikolaos	Khetan	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation
Mukund Nikolaos Ivan Lazaros	Khetan Kochylas Kostić Kourtidis	 mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique
Mukund Nikolaos Ivan Lazaros Uday Shamrao	Khetan Kochylas Kostić Kourtidis Kumbhar	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao	Khetan Kochylas Kostić Kourtidis Kumbhar	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4)
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Eugenio Eugenio	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños	 mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños	 mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery Use of cyanoacrylate glues as an alternative for peritoneal defect closure in minimally invasive inguinal hernia repair by TEP approach
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery Use of cyanoacrylate glues as an alternative for peritoneal defect closure in minimally
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños Licardie Bolaños	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix [™] ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery Use of cyanoacrylate glues as an alternative for peritoneal defect closure in minimally invasive inguinal hernia repair by TEP approach White light with ICG mode as a technical resource in urgent surgery: Intestinal hernia secondary to gastrectomy Robotic TAPP for ventral hernia repair
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio Eugenio Mahendra	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños Licardie Bolaños	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery Use of cyanoacrylate glues as an alternative for peritoneal defect closure in minimally invasive inguinal hernia repair by TEP approach White light with ICG mode as a technical resource in urgent surgery: Intestinal hernia secondary to gastrectomy Robotic TAPP for ventral hernia repair TAPP approach por bilateral inguinal hernia and placement of catheter for CAPD: An example of healthcare efficiency
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio Eugenio Ana	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños Licardie Bolaños Licardie Bolaños	mesh repair technique Modified port position for bilateral inguinal TAPP creating unilateral peritoneal flap Use of biologic glue in TAPP. Tricks and challenges Lumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CT evaluation Phasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentation of surgical technique Robotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approach Laparoscopic-assisted robotic repair of right paraduodenal hernia Minimally invasive approach to Grynfeltt hernia (L4) Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescence angiography in emergency surgery Use of cyanoacrylate glues as an alternative for peritoneal defect closure in minimally invasive inguinal hernia repair by TEP approach White light with ICG mode as a technical resource in urgent surgery: Intestinal hernia secondary to gastrectomy Robotic TAPP for ventral hernia repair TAPP approach por bilateral inguinal hernia and placement of catheter for CAPD: An example of healthcare efficiency Management of a central recurrence after a posterior component separation repair in a giant subcostal hernia
Mukund Nikolaos Ivan Lazaros Uday Shamrao Uday Shamrao Uday Shamrao Eugenio Eugenio Eugenio Eugenio Mahendra Ana Javier	Khetan Kochylas Kostić Kourtidis Kumbhar Kumbhar Licardie Bolaños Licardie Bolaños Licardie Bolaños Licardie Bolaños Lopez Huerta Lopez Huerta Lopez-Monclus	mesh repair techniqueModified port position for bilateral inguinal TAPP creating unilateral peritoneal flapUse of biologic glue in TAPP. Tricks and challengesLumbar incisional hernia repair; Preperitoneal placing of mesh; The importance of CTevaluationPhasix™ ST Mesh for crural reinforcement during giant hiatal hernia repair: Presentationof surgical techniqueRobotic total extraperitoneal (rTEP) inguinal hernia repair: A pragmatic approachLaparoscopic-assisted robotic repair of right paraduodenal herniaMinimally invasive approach to Grynfeltt hernia (L4)Minimally invasive approach to strangulated ventral hernia and use of ICG fluorescenceangiography in emergency surgeryUse of cyanoacrylate glues as an alternative for peritoneal defect closure in minimallyinvasive inguinal hernia repair by TEP approachWhite light with ICG mode as a technical resource in urgent surgery: Intestinal herniasecondary to gastrectomyRobotic TAPP for ventral hernia repairTAPP approach por bilateral inguinal hernia and placement of catheter for CAPD: An example of healthcare efficiencyManagement of a central recurrence after a posterior component separation repair in a giant subcostal herniaComplex thoracoabdominal reconstruction after a thoracic oncological resection

Manuel	Medina Pedrique	Laparoscopic Sugarbaker technique for paraostomal hernias. How we do it
Filipa	Meruje	Small bowel obstruction as a complication of transabdominal preperitoneal hernia repair – an internal hernia caused by adhesions to a barbed suture
Ana	Morante	Surgical repair of postoperative perineal hernia
Francisco	Moreno Suero	TAPP approach for incisional lumbar hernia. A vídeo presentation
Björn	Mück	Robotically assisted repair of a bilateral parastomal hernia
Joaquín Manuel	Muñoz Rodríguez	Endoscopic drainage for the management of infected subcutaneous collections following DIEP flap reconstruction technique: A case report
Joaquin	Munoz-Rodriguez	Exploring the down to up Rives eTEP technique: Managing recurrent midline incisional hernia with prior preperitoneal mesh placement
Joaquin	Munoz-Rodriguez	Rives eTEP procedure following laparoscopic reduction for chronic incarcerated incisional hernia management
Frederick	Olivier	Robotic retromuscular abdominal wall repair using an inverted TEP (iTEP) approach: Results of the first 100 patients
Carles	Olona	rTAPP for the simultaneous treatment of recurrent bilateral Spigelian and inguinal hernias
Mikel	Osorio	Mesh repair and long term complications
María Jesús	Peña Soria	Laparoscopic transabdominal preperitoneal hernioplasty (TAPP) for obturator hernia
Shridhar	Radhakrishnan	Sometimes less is good, too (laparoscopic 2 port TEP procedure for Groin hernia)
Shridhar	Radhakrishnan	Laparoscopic e-TEP in giant type I direct inguinal hernia
Sofia	Reis	Laparoscopic intracorporeal rectus aponeuroplasty (LIRA) in a post-peritonectomy and HIPEC patient. How far can we go?
Laura	Román García de León	Complex abdominal wall repair in chronic mesh infection with gastrointestinal reconstruction
Rocío	Ruiz Marzo	The advantages of the laparoscopic approach in multi-recurrent inguinal hernia
Maria	Sánchez Ramírez	TAPE repair. Transabdominal partial extraperitoneal repair for laparoscopic repair of suprapubics hernias
Andrea	Scammon Duran	eTEP and transversus abdominis release in a M5W3 incisional hernia
Andrea	Scammon Duran	Botulinum toxin and eTEP in epigastric M1M2W3 incisional hernia after hepatic transplant
Jenine Joy	Segismundo	The THT (Trentino Hernia Team) technique stands out as a reproducible and highly effective option for repairing incisional hernias
Alba Maria	Serrano	Laparoscopic approach to inguinal bladder hernia
Nazrah	Shaikh	Laparoscopic unilateral e-TEP with partial TAR
Mahaveer Singh	Sharma	Incising posterior wall of inguinal canal makes TAPP for large hydrocele of canal of Nuck easier
Alba	Torroella	Total visceral sac separation (TVS) approach for midline ventral hernia. Case report
Jeancarlos	Trujillo-Díaz	Laparoscopic extended totally extraperitoneal (e-TEP) technique for lateral ventral hernia repairs: Step by step
Jeancarlos	Trujillo-Díaz	Laparoscopic extended totally extraperitoneal (e-TEP) treatment of ventral hernias: Tips & tricks
Jeancarlos	Trujillo-Díaz	Primary abandon of hernia sac for inguinoscrotal hernia: A case report
Carlota	Tuñón	Abdominal wall reconstruction after excision of a giant desmoid tumour
Carlota	Tuñón Féquant	How to perform a caudal dissection of a Rives-Stoppa: Step by step with anatomical relationships
Victor	Vaello	Hybrid surgery for giant L2-4W3 incisional hernia: e-TEP and laparoscopic Madrid-PCS
Ashish	Vashistha	Robotic single flap method for bilateral inguinal hernia mesh repair
Ashish	Vashistha	Robotic Nissen fundoplication for hiatal hernia with reflux
Ashish	Vashistha	Mesh explantation
Rafael	Villalobos Mori	Recurrent complex inguinal hernia: Robotic TAPP
Robert	Vogel	Robotically assisted totally extraperitoneal midline incisional hernia repair after open cystectomy
Artur	Zanellato	Vacuum-assisted fascial closure in the management of open abdomen: The optimal foam's position
	Zárate Gómez	Total extraperitoneal endoscopic deep inquinal exploration for lymph node biopsy
