

Monday 28th of August

8:00 AM	Registration									
9:00 AM	<u>Keynote address</u> by Teresa McCormack									
10:15 AM	Coffee									
10:45 AM	<u>Plenary symposium</u> led by Cristina Atance , featuring Christoph Hoerl and Lia Kvavilashvili									
1:00 PM	Lunch									
2:30 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Time and memory		Embodied and extended cognition		Methodology, modelling and measurement		Emotion		Symposium The Many Forms of Colour Vision	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title
	Ewing & Gallant	<i>Perceptions of Time and Freedom in Dementia and Its Effects on Well-Being</i>	Venter	<i>United at Last: An Integrated Account of Predictive Processing and Embodied Cognition</i>	Molina	<i>Spontaneous and Voluntary Introspection</i>	Mölder	<i>An interpretivist perspective on emotions</i>	Davies	<i>The Heterogeneity of Colour Perception</i>
	Rappe	<i>Episodic memory and causal reasoning via counterfactual simulation: an approach based on trace minimalism and predictive processing</i>	Pelland	<i>Representation vs affordance: the case of number</i>	Mitkowski	<i>Do problems with theory exacerbate the replication crisis?</i>	Majeed	<i>On How to Develop Emotion Taxonomies</i>	Kentridge	<i>What Use is Colour Experience?</i>
	Werning	<i>Remembering dreams: Beyond a representationalist and relationalist analysis of episodic memory</i>	Kliesch	<i>Infants' Understanding of communicative signals: A 4E-perspective</i>	Lackey	<i>Multiple Model (De)Idealization</i>	Rowson	<i>The object of surprise</i>	Akins	<i>Colour Bit-by-Bit: On the Development of Colour Vision</i>

	Alvarez	<i>Remembering and relearning: A compatibilist view</i>			Heemskerk	<i>Can We Extract a Theory of Content from Cognitive Science?</i>				
4:30 PM	Coffee									
5:00 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Attention and executive function		Social cognition and communication		Neuroscience: theoretical and conceptual issues		Perception and reality		Uncertainty and reflection	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title
	Michel	<i>Blank Access</i>	Simpson	<i>Does Communication Involve Content? A Contention</i>	Gouveia	<i>Philosophy and Neuroscience: An Experimental Philosophy Study</i>	Skrzypulec	<i>Experiential Boundaries and the External Space</i>	FitzGibbon	<i>Individual differences in preferences for uncertainty</i>
	Schröder	<i>Effect of Attention to fractal and non-fractal images in a novel two choice SART-oddball task</i>	Gadsby	<i>Tattoos as social signals</i>	Kabrel	<i>Extending The Mind: The Neural Basis and Phenomenology of Introspective Insight</i>	Coudray	<i>“Appearance Proto-Concepts” as The Upper Limit of the Admissible Contents of Vision</i>	Meyer	<i>Social Metacognition – Preschoolers’ Metacognitive Insight Under Partial Ignorance in Social Test Contexts</i>
	Niczyporuk	<i>The relationship between thought suppression research paradigms</i>	Reimer	<i>Co-Speech Gestures’ Contribution to Sentence Meaning Composition</i>	Fink	<i>Activation Bias</i>	Henke	<i>Explaining the Impact of Visual Illusions on Perception and Action: Comparing the Two- and One-Representation Accounts</i>	Blakey	<i>Reimagining metacognition: The transition from unreflective to reflective epistemic thinking</i>

							Minden Ribeiro	<i>Perceptual presence and the limit of metaphysical explanation</i>	Schidelko	<i>Reasoning about Possibilities Under Epistemic and Physical Uncertainty</i>
7:00 PM	Poster madness (brief introductions of posters)									
7:30 PM	Reception									

Tuesday 29th of August

9:00 AM	Keynote address by Nick Shea									
10:15 AM	Coffee									
10:45 AM	Plenary symposium led by Edouard Machery , featuring Brad Mahon and Gabriella Vigliocco									
1:00 PM	Lunch									
2:30 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Concepts		Belief and knowledge		Effort		Self-representation		Symposium The Biogenic Account: New perspectives in understanding the material basis of cognition	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title
	Verdejo	<i>The Language of Thought, Re-Emerged and Re-Levelled</i>	Keeling	<i>Responding to Higher-Order Reasons</i>	Brozzo	<i>The principle of least cognitive effort: an underexplored driver of action</i>	Niemeck	<i>Indexical Thought, Affordances and Virtual Worlds</i>	Harrison	<i>Affective Neuroscience and the Biogenic Account of Cognition: The Physiological Basis of Cognition</i>
	Scholz	<i>Conceptual Spaces: A Solution to Goodman's New Riddle of Induction?</i>	Amirhaftehran	<i>Is knowledge evaluation always faster than belief ? A test of Factive theory of mind accounts.</i>	Junker	<i>Is the Wandering Mind a Planning Mind?</i>	Ranzenigo	<i>Existential self-identification</i>	Laukaityte	<i>Upgrading Theories of Mindedness: Multiple Realisability 2.0 and Fine-Grained Functionalism</i>

	Raia	<i>Dissolving the debate on the format of concepts</i>	Roessler	<i>Perceptual knowledge and doxastic responsibility</i>	Pacherie	<i>The joys and sorrows of effort</i>	Hochman	<i>The Hierarchy of Selves in Perception</i>	Sims	<i>The Principle of Dynamic Holism: Guiding methodology for investigating cognition in non-neuronal organisms</i>
	Porat	<i>Synesthesia, Abstractness and Embodied Cognition: is synesthesia a mechanism of conceptualization?</i>	Álvarez Gonzalez	<i>Bi-Level Evaluative Epistemology</i>	Hendrickx	<i>Mental First - Explaining Effort</i>	Young	<i>Smell thyself, but not consciously</i>		
4:30 PM	Coffee and posters									
5:00 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Time and memory		Moral psychology and ethics		Belief and knowledge		Theory of mind		Reasoning	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title		
	Lee	<i>Temporal asymmetries and the relative utility of memory and experience</i>	Stamatiou	<i>Moral luck and “many-shots” actions</i>	Ballarini	<i>Doxastic Cartography</i>	Garbisch	<i>Children's understanding of subjective intentions in a retrospective event interpretation task</i>	Almagro	<i>Can we get polarized over what we don't understand?</i>
	Blomkvist	<i>Episodic Memory for Learning: Insights from Artificial Agents</i>	Toribio	<i>Seeing wrongness</i>	Hofmann	<i>What's the Linguistic Meaning of Delusional Utterances? Speech Act Theory as a Tool for Understanding Delusions</i>	Celik	<i>Communication induced belief attribution in infancy: an unexpected altercentric bias in eighteen-month-olds</i>	Barner	<i>Reasoning with synesthesia</i>

[illegible]

Wednesday 30th of August

9:00 AM	Keynote address by Peter Hagoort									
10:15 AM	Coffee									
10:45 AM	Plenary symposium led by Raffaella Bernardi , featuring Aida Nematzadeh and Mariya Toneva									
1:00 PM	Lunch									
2:30 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Comparative and developmental psychology		Imagination		Consciousness		Emotion		Symposium The Varieties of Salience: Philosophical and Psycholinguistic Relevance	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title
	Melis	<i>Rational belief-formation and reflection in human and non-human animals</i>	Myers	<i>The Epistemic Role of Vividness</i>	Hornett	<i>Pereptual Capacities and the Mosaic of Sensations</i>	Dolega	<i>Hidden in plain sight: on valence and the elusive nature of affective perception</i>	Reuter	<i>Salient semantics: Putting cognitive processes before definitions</i>
	Kopsov	<i>How comparative psychology helps to unravel the mystery behind human motivation</i>	Dunin-Kozicka	<i>Affording Imagination and Virtual Reality</i>	Weger	<i>Structuralist representationalism about phenomenal consciousness</i>	Matey	<i>Grief and Meaningfulness</i>	Fischer	<i>Experimental argument analysis: When default inferences beat context, due to salience</i>
	Meertens	<i>A Functional Account of Awareness in Animals</i>	Pani	<i>General and specific images: a distinction for the intention-motor interface and its implications for imagery construction</i>	Shepherd	<i>The capacity-based approach to functions of consciousness</i>	Heppell & Nell	<i>The Experiences of Adolescent Daughters of Mothers diagnosed with Borderline Personality Disorder</i>	Breheny	<i>Putting metaphor interference in context: A window onto language processing</i>

	Ebel	<i>Developmental trajectories of tool use in zoo and sanctuary-housed chimpanzees</i>	Gauker	<i>Amodal Completion: Imagination or 3D Modeling?</i>	Zięba	<i>A Naïve Realist Theory of Consciousness</i>	Otterski	<i>Do we directly perceive others' emotions?</i>		
4:30 PM	Coffee and posters									
5:00 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Reasoning		Social cognition and communication		Perception and reality		Artificial intelligence			
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title		
	Koi	<i>Nudges alter decision sets</i>	Dahl	<i>Meaningless Communication: Towards an Understanding-First Approach to Language</i>	Stazicker	<i>Perceptual confidence, presence to the mind, and disciplinary autonomy</i>	Erden	<i>AI for psychiatry: close encounters of the algorithmic kind</i>		
	Maćkiewicz	<i>Non Doxastic Attitudes, Assessment, and Conjunction</i>	Scarafone	<i>Communication and Mindreading in Infancy</i>	Grad	<i>Realism and the rudimentary theory of perception</i>	Strasser	<i>What to do about the increasing indistinguishability between humans and machines?</i>		
	Nouwen	<i>Reconciling the philosophy and cognitive science of rhetorical figures: the case of meiosis and hyperbole</i>	Drożdżowicz	<i>Speaker impressions and risky inferences</i>	Battich	<i>Shared perception and the sense of reality</i>	Keshmirian	<i>Human vs. ChatGPT: the perceived causal strength in chains vs. common causes</i>		
	Reuter	<i>Conspiracy theories are not theories</i>	Borgoni	<i>The Enjoyment of Interlocution</i>	Weksler	<i>Weber's Law as a Challenge to Phenomenal Diaphaneity</i>				
7:00 PM	End of session									
8:00 PM	Conference dinner									

Thursday 31st of August

9:00 AM	Keynote address by Ophelia Derooy									
10:15 AM	Coffee									
10:45 AM	Plenary symposium led by Bahador Bahrami , featuring Olle Blomberg and Elisabeth Pacherie									
1:00 PM	Lunch									
2:30 PM	Parallel sessions (30 minutes including Q&A for each paper)									
	Aesthetics and creativity		Bias		Belief and knowledge		Moral psychology and ethics		Neuroscience: theoretical and conceptual issues	
	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title	Presenter	Title
	Cutting	<i>Capturing children's innovations in different contexts; comparing structured problems and play.</i>	Asma	<i>How to make sense of bias in behavior and decision-making</i>	Skoczen	<i>Lies, Common Ground and the Law</i>	Vanello	<i>Moral identity, moral integration, and autobiographical narrative</i>	Raja	<i>The Motifs of a Radical Embodied Neuroscience</i>
	Wang	<i>Hopping through the conceptual space: Diffusely attending to memory in creative thinking</i>	Baker	<i>Nonverbal Marginalization</i>	Reins & Wiegmann	<i>The impact of implicit content on lie and truth judgments: A cross-culture study</i>	Beckman	<i>Moral responsibility for empathic failures: a response to David Shoemaker</i>	Facchin	<i>Neural Representations Unobserved</i>
	Allegretti	<i>Sense of Beauty and Aesthetic Predisposition in Evolutionary Aesthetic Theorising</i>	Patronnikov	<i>Implicit bias and the problem of inconsistent beliefs</i>	Kovačević	<i>You should have checked! The importance of epistemic intentions in ascription of responsibility</i>	Michael	<i>The Moral Sense: A Minimal Approach</i>	Pokropski	<i>First-person constraints on explanations in neuroscience. The case of migraine aura models</i>

			Isern-Mas	<i>The lay concept of self-deception</i>			Nguyen	<i>The ethics and moral psychology of vaccination: evidence from a cross-cultural study</i>		
4:30 PM	End of conference
