

First Announcement

10th European Testicular Tumor Workshop

Prague
9th - 11th October 2024

10th European Testicular Tumor Workshop

9th – 11th October 2024, Prague

Preliminary program and confirmed speakers

I. Epidemiology

1. Epidemiologic trends and environmental risk factors

Katherine McGlynn (US)

Marcin Wojewodzic (NO)

II. Genetics and molecular biology

2. Genetic and hereditary predispositions

John Pluta (US)

Douglas R Stewart (US)

3. Molecular biology and signaling pathways

Davor Lessel (AT)

Fredrik Wiklund (SE)

4. Pathogenesis of platinum resistance

Daniel Nettersheim (DE)

Hubert Schorle (DE)

III. Classification, prognostic factors and biomarkers

5. Tumor classification and risk assessment

Daniel M Berney (UK)

Thomas Wagner (DK)

6. Circulating biomarkers

Joao Lobo (PT)

Markus Klemke (DE)

IV. Clinical management

7. Novel approaches and clinical trials

Winfried Alsdorf (DE)

Jakob Lauritsen (DK)

8. Role of surgery

Axel Heidenreich (DE)

V. Long-term sequelae, life quality

9. Long-term sequelae and their management in tumor survivors

Jourik Gietema (NL)

Michal Chovanec (SK)

10. Fertility aspects in relation to TGCT pathogenesis and management

Csilla Krausz (IT)

Mikkel Bandak (DK)

VI. Rare testicular tumor types

11. Spermatocytic and interstitial tumors

Daniel M Berney (UK)

12. Pediatric germ cell tumors

Jen Poynter (US)

VII. Testicular tumor networks presentations

Lindsay Frazier (US) - MaGIC

Peter Kanetsky (US) - TECAC
